11 Tourism & Safety Tips for Travel

by Corey English

Summer is upon us. What better way to enjoy summer – TRAVELING ABROAD. While traveling can be fun, it also can also be quite dangerous. When you are venturing out, you may want to consider these safety tips to make sure you protect yourself and others with you.

1) Choose your ground transportation wisely

According to the World Health Organization (WHO), some 1.25 million people die each year because of road traffic crashes.

TOURISM & SAFETY TIPS FOR TRAVEL (CONTINUED)

In choosing your transportation, look for vehicles in good working order and functioning seatbelts and investigate company safety records.

2) Check in with the State Department

Check the State Department website <https://www.state.gov/> to get trustworthy, updated details about wherever you're visiting.

3) Review the escape route in your hotel room

4) Leave an itinerary and emergency contact

Leave some basic information on what city/hotel you will be visiting and when you will return in case you need to be contacted.

5) Scan a copy of your passport

or take a photo and save it on your phone, in case your passport is misplaced/locked/stolen.

6) Confirm visitors with the hotel desk

Call the front desk to verify that someone from the property needs access to your room.

7) Don't flash your cash or valuables

8) Let your bank know where you are going

9) Steer clear of animals
Not every animal will have their

vaccinations. A case of rabies can easily ruin a vacation.

10) Save emergency numbers

911 does not work everywhere. Find out what the local emergency hotlines are and save them to your phone (preferably on speed dial). You may want to write them down as well.

11) Trust your instincts!

BENEFITS & UPDATES

Current:

- Health insurance
- Dental insurance
- Vision insurance
