

## OVERVIEW:

### September 2018 Newsletter

---

Happy September!

Fall is just around the corner, September 22, and before you know it, so is 2019.

This year, GSGPS has sought to increase communications and employee awareness over benefits, policies, training and security topics in general. We hope to continue communications and collecting feedback throughout the year.

As always, for any ideas, article suggestions or questions, please feel free to submit: [www.bit.ly/gsgnl](http://www.bit.ly/gsgnl)

- July Employees of the Month
- Open Positions
- Training Calendar

# SECURITY TECHNOLOGY - OVERVIEW

As security professionals, you encounter a lot of rising and complicated security technology- technology that is aimed at protecting individuals, organizations and goods. GSGPS wanted to do a quick overview of some of the more common and powerful surveillance technology.

## Drones

- Ability to see 1.5 miles out
- Zoom in on moving targets
- Cut time & costs for surveillance of large areas
- Ability to navigate through confined spaces & tough terrain
- Produce live HD video

## Portable Surveillance Units

- Mobile video monitoring units
- High powered surveillance cameras
- Can be 30ft high
- Ability to see activity half a mile away
- Great for monitoring high traffic areas/events
- Criminal deterrent
- Wireless capabilities
- Make public announcements & alerts

## Access Control

- Restrict entry points to regulate people, vehicles, goods
- Great for office buildings, schools, residential communities, government facilities, studios, etc.
- Alarm capacity
- ID suspects earlier / delay assailants
- Prevent intruders
- Criminal deterrence
- Increases feeling of safety
- May be integrated with other security systems

## CCTVs

- CCTVs stand for Closed Circuit Television
- Security/surveillance systems comprised of cameras, recorders, monitoring displays
- Monitor multiple locations in real time
- Record activity
- Criminal deterrence
- ID vulnerabilities/areas of improvement
- Stream to mobile devices
- Utilize for analytics
- Wireless capabilities
- Inferred, night vision, facial recognition, license plate reader options
- Traffic monitoring

## Robotics

- Great for automated tasks
- Inspect dangerous terrain (ex: toxic waste facilities)
- Two-way audio
- Video surveillance
- Patrol large areas
- Reduce employee risk
- Criminal deterrence
- Detect intruders, water leakage, air quality, fires
- Ability to approach persons to ensure authorization
- Wireless
- Handles various terrain & weather
